

Press Release

After having played, as an ordinary member, an active role in the Dianova network for more than one decade, the *ASBL Dianova Belgique* (Dianova Belgium) decided, at the organization's general assembly held on September 24th, 2010, to modify its legal name into "*ASBL la Ferme de Thioux*", after the name of the therapeutic community where the organization's main activity is located, in Belgium's Walloon region.

This decision which originally proceeds from the will of the organization's executives to promote local relationships with public institutions and local networks, implicitly entails its resignation from Dianova International's ordinary membership.

The Dianova Network's ordinary members are dedicated to act locally and think globally and, the value of internationality being the keystone of their common action, they have unanimously accepted Dianova Belgium's formal resignation as an ordinary member, at the General Assembly of the delegates of Dianova International, held in Madrid on October, 30th, 2010.

On behalf of Dianova International, we wish them the best for the future.
